FELLOW X-TRAILERS, I have a petrol-driven GX 2.5 t30 2007/8. For the second time, my Engine Management Light (EML) has come on straight after topping up the fuel tank at a service station different from the one I usually frequent (Shell). The first time, my trusty mechanic said it was just because of a change of fuel.

Hi Gerry . There is no reset as such, let me please explain what this light means and what you have to do to have this light switch off , If any warning lights are on this is a reason for a MOT failure . The check engine light is yellow, meaning you don't have a great problem, this comes on when the

management system (ECM), encounters a malfunction within the engine and transmission system.
