Property Relations Renewing The Anthropological

The anthropological tradition approaches property as a "bundle of rights" and property relationships as social relationships. Rejecting both liberal and socialist approaches, which often neglect the wider social and cultural contexts of property, the contributors to this volume renew and extend the anthropological perspective.

Property Relations: Renewing the Anthropological Tradition ...

Anthropology traditionally treats property relationships as social relationships, emphasising that material objects carry cultural meanings. Rejecting liberal economic and Marxist views on property, the contributors to this volume renew the anthropological perspective, applying it to a range of ethnographic cases.

The establishment of moral relativism does not exhaust anthropological comparisons of how people strive for a good life. In this article I suggest that comparative research into ethical systems and moralities can be productively complemented by an anthropology of virtue. ...
